

Leads Generation: Valuable content drives calls to action.

Consider adding a "Resources" section on the PDP page with options such as "Request a Free Sample" or "Download e-Catalog" to encourage customers to submit a web form, thereby capturing lead information for follow-up, nurturing, and conversion by inside sales.

Leads Generation: Considering create a dedicated new Solution Page for the AWC and PPE segments?

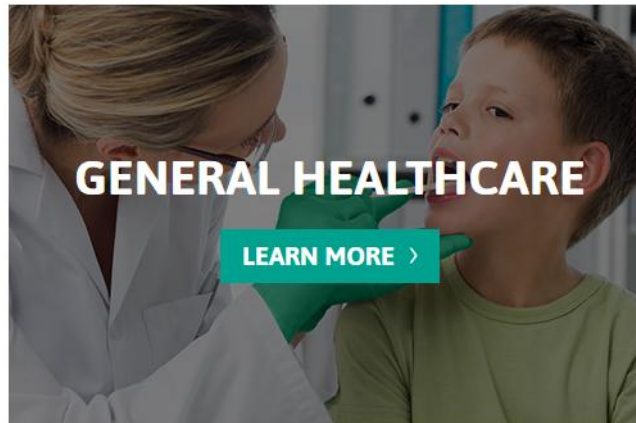

This would allow the BU to present an integrated solution perspective to customers, clearly illustrating which industries and specific application scenarios we can serve. The BU could leverage this page for customer outreach and promotion.

Select your work setting:

Customer Experience: On the product category page, could the sidebar be changed to a filter panel that allows customers to refine products by use case, material, size, wound type suitability, etc.?

This would make it easier for customers to find the most suitable products. (Currently, the sidebar retains the same categorization as the parent page.)

The screenshot displays the SolM website's 'Advanced Wound Care' product category page. The URL in the browser is <https://b2b.solm.com/collections/advanced-wound-care>. The page features a sidebar on the left with filter categories: Color (White, 76), Brand or Series, Material (Plastic, 63; Steel / Plastic, 1; Foam / Vinyl, 8; Aluminum / Plastic, 4), Manufacturer Name, Application (Raised Toilet Seat with Arms, 26; Raised Toilet Seat, 22; Hinged Raised Toilet Seat, 8; Toilet Seat Cushion, 7; Bariatric Raised Toilet Seat, 3; Show All Application), Weight Capacity (300 lbs. Weight Capacity, 43; 350 lbs. Weight Capacity, 8; 600 lbs. Weight Capacity, 4; 400 lbs. Weight Capacity, 3; Without Stated Weight Capacity, 8; Show All Weight Capacity), and Dimensions (22-1/2 X 16 Inch, 4; 16-1/2 X 17 Inch, 3). The main content area is titled 'Advanced Wound Care' and shows a grid of products. A red box highlights a filter panel overlay on the left side of the main content area, which lists categories: Diabetes Care (Lancets, Insulin Syringes, Pen Needles, Alcohol Swabs, All Diabetes Care), Blood Collection & Diagnostics (Blood Collection, Accessories, Blood Collection Holders, Safety Blood Collection Sets, Safety Lancets, Safety Multi-Sample Needle, Standard Multi-Sample). The product grid includes Sol-Care™ Foam Dressings, Sol-Care™ Silicone Foam Dressings, Sol-Care™ Hydrocolloid Dressings, Sol-Care™ Transparent Dressings, and other products. The page also shows a 'You're ordering for:' section with 'Switch Locations' and '+ Add' buttons, and a 'Sort by: Featured' dropdown menu.

Customer Experience: currently, the number of SKUs within each product category is limited, and only the main product image and name are displayed. **Consider enhancing the category listing page by adding up to three bullet points to highlight key features or benefits of each product.**

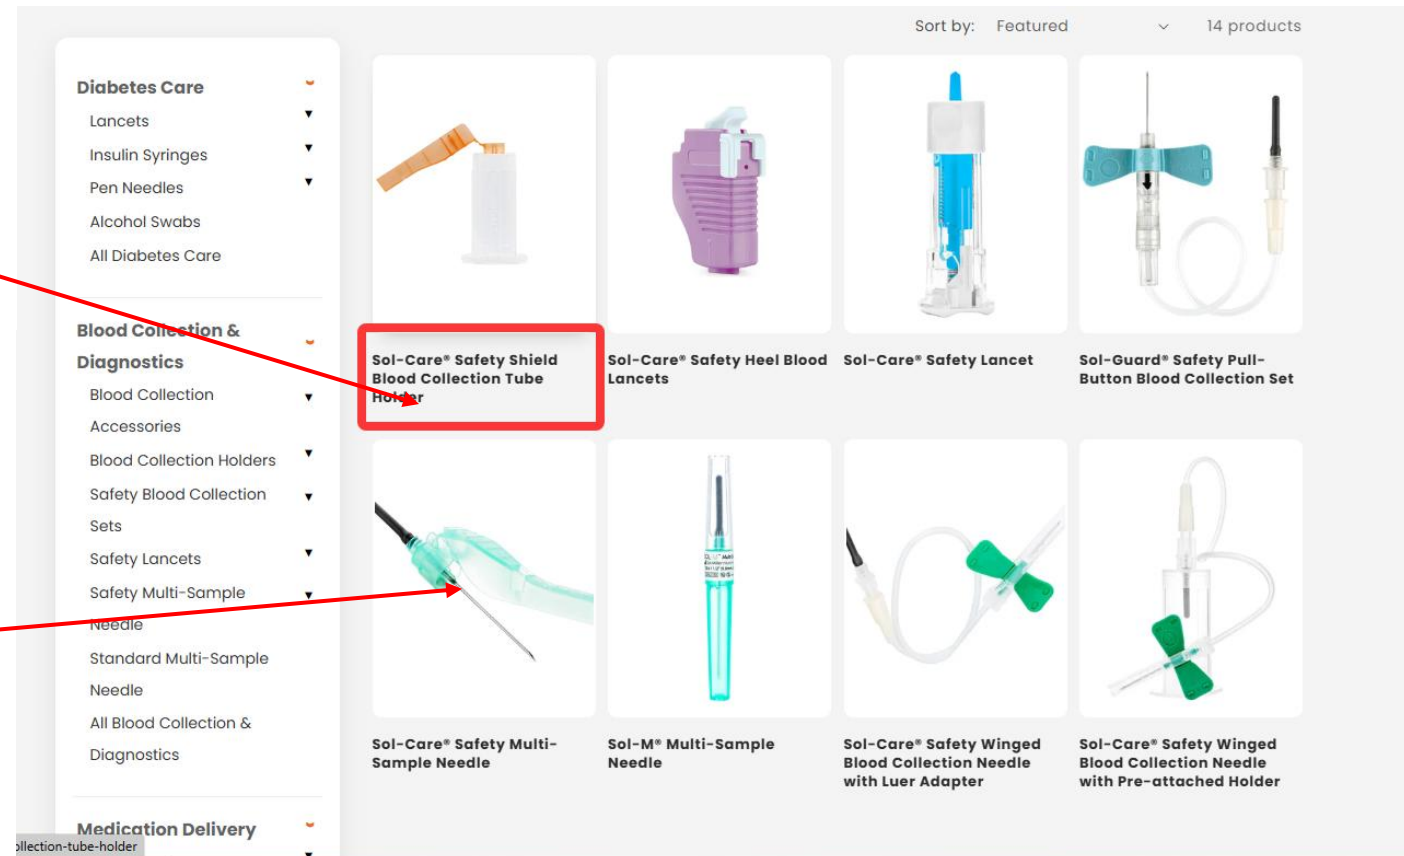

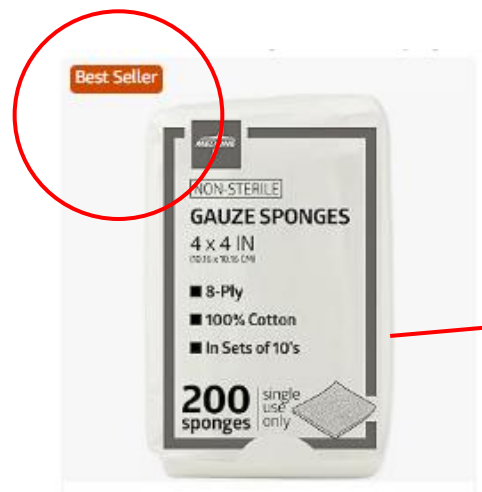

Additionally, if any Business Unit (BU) has products they want to prioritize or promote, a **"Bestseller" or "Hot Selling" badge** could be added to those items within the category to attract user attention and encourage clicks and inquiries.

#1065248 | 109 | McKesson Brand #146-13221M

Full Body Commode Sling McKesson 4 or 6 Point Cradle Without Head Support Medium 600 lbs. Weight Capacity

- Designed to support patient during lift and transfer procedures
- Can be used with any floor-style lift
- Optional chain/strap is not required

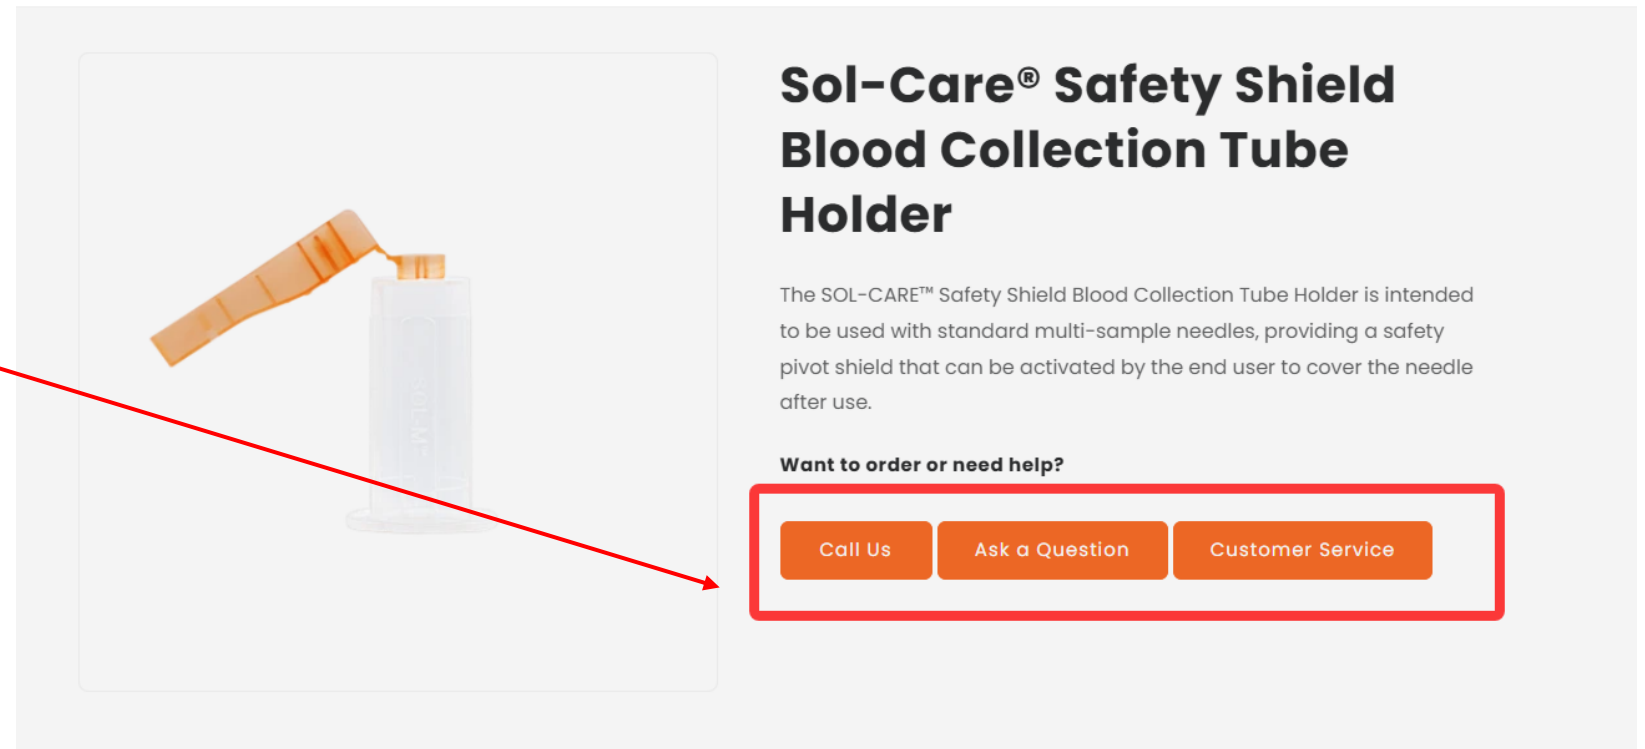

Customer Experience: On the PDP page, the customer's call-to-action (CTA) could be more focused. Since this is primarily a B2B e-commerce website, key CTAs could include:

“Add to Cart”

“Ask a Sol M Expert” (for pricing inquiries)

Customer Service Button could be low priority (already clearly visible at the top of the page)

- Add to cart
- Ask a Sol M expert (either phone number or webform)

Content Optimization: To support SEO efforts, could you provide product managers with a guideline for crafting content and incorporating relevant keywords on PDP Page templates. This may help increase the visibility and searchability of product pages.

Sol-Care® Safety Multi-Sample Needle

The Sol-Care Safety Multi-Sample Blood Collection Needle is designed with a safety shield that completely covers and locks over the needle after use to protect against needlestick injuries.

- Safety shield aligns with a bevel up needle orientation, allowing for low-angle penetration
- Pivoting safety shield with audible click that indicates it is locked in place
- Safety mechanism is designed for one-handed activation
- Safety shield is color coded to reduce potential errors
