

PRODUCT REQUEST FORM

PRODUCT NAME:	Sterile Pre-Wetted with 70% IPA Wipers
DESCRIPTION OF REQUEST: - New Product - Modification - Product Extension - Country addition - Label Change - Intended Use -...Etc...	Establishing a strategic distribution partnership to supply Sterile, Pre-Wetted 70% Isopropyl Alcohol (IPA) Wipes from a leading U.S. manufacturer to the compounding pharmacy market. This initiative is a critical execution of our company's strategic pivot to become a premier one-stop service distributor for this sector. Project Background The U.S. compounding pharmacy market, valued at \$15.6 billion, relies on a consumables segment worth \$2.34 - \$3.12 billion. and a projected CAGR of 7% (2025~2035). Core to pharmacy operations is strict adherence to USP <797> and <800>, where sterile 70% IPA wipes are a non-negotiable, high-frequency consumable for disinfecting ISO 5 cleanrooms and equipment. However, sourcing this product from China presents significant regulatory and quality assurance hurdles, making it an inefficient path to market. Conversely, developing our own branded wipe would delay our entry and dilute resources from our core distribution strategy. Therefore, the optimal strategy is to distribute an established, trusted U.S. brand. This approach: • Aligns perfectly with our strategic direction to be a "one-stop total solution" distributor, not a manufacturer, for compounding pharmacy consumables. • Provides immediate market access with a pre-validated, compliant product that pharmacists recognize and trust. • Mitigates regulatory and supply chain risk by leveraging the partner's existing certifications and domestic production. Compounding Pharmacy Market By Product, Till 2035 (USD Billion)  USD Billion USD 15.6 Billion Current Market Size 7% CAGR Till 2035 USD 31.8 Billion Value in 2035 Source: https://www.rootsanalysis.com/
PURPOSE OF REQUEST:	☐ Complaint No. _____ ☐ Supplier _____ ☒ New market _____ <u>US</u> ☐ Customer _____ ☐ Internal _____ ☐ Other _____ Add details:

ESTIMATED BENEFITS:	☒ Financial Benefit: <u>Complete the product lines for the allergy clinics markets, Annual sales amount 500K</u> (Mandatory For NPD request) <i>Estimate the potential increase in cash flows, revenues, or any other financial benefits</i> ☐ Cost Saving: _____ <i>Decrease in the cogs, transportation or operation expenses, or any other cost-saving opportunities</i> ☐ Improved Operational Efficiencies: _____ <i>Decrease in the Lead time, delivery time, MOQ, Inventory, or any other efficiency improvement</i> ☐ Non-Financial Benefits: _____ <i>Quality Improvement; Enhanced customer satisfaction, product competition, Brand reputation, etc.</i> ☐ Other Benefits: _____												
PRODUCT DESCRIPTION: - Functional performance requirements - Appearance - Any unique points of differentiation against similar competitor product lines ...Etc...	Product Definition & Scope This NPI defines a business partnership model, not a manufacturing project. • Product: Sterile, low-linting 70% IPA wipes from a selected, reputable U.S. manufacturer. • Primary Use: Critical for disinfection protocols in sterile & hazardous drug compounding workflows. • Our Value Proposition: We will act as a strategic distributor, offering competitive pricing, reliable logistics, and bundling with our expanding portfolio of compounding supplies. Our role is to provide service, convenience, and consolidated sourcing for our pharmacy clients. 3.
