

PRODUCT REQUEST FORM

PRODUCT NAME:

Sterile Nitrile Gloves

DESCRIPTION OF REQUEST:

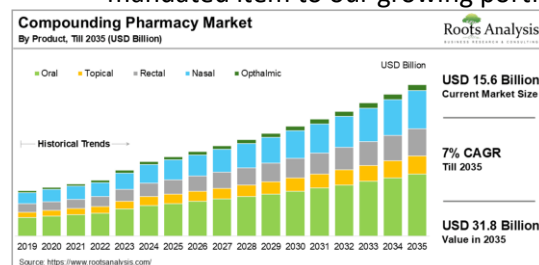

- New Product
- Modification
- Product Extension
- Country addition
- Label Change
- Intended Use
- ...Etc...

This initiative targets the foundational and high-volume need for personal protective equipment (PPE) within the \$15.6 billion U.S. compounding pharmacy market and is essential for executing our strategy as a **comprehensive, compliance-focused distributor**.

1. Project Background

Sterile compounding is governed by stringent **USP <797>** standards, which mandate the use of specific PPE to ensure product sterility and operator safety. **Sterile Nitrile Gloves** are a non-negotiable, consumable cornerstone of these protocols, As highlighted in our channel plan, the market for compounding consumables is substantial (**\$2.34 - \$3.12 billion**), with glove consumption being continuous and high. However, the regulatory and validation burden of introducing a new glove brand, especially from a new manufacturing source, is significant. Therefore, the most effective and low-risk strategy is to **distribute an established, trusted U.S. brand** that is already recognized and accepted by pharmacy procurement and quality assurance teams. This approach:

- **Provides immediate access** to a high-turnover, recurring revenue stream with a product that has pre-existing market validation.
- **Eliminates complex regulatory hurdles** associated with new product introductions in this highly sensitive category.
- **Solidifies our “one-stop-shop” value proposition** by adding a critical, workflow-mandated item to our growing portfolio of compliance consumables.

PURPOSE OF REQUEST:

☐ Complaint No. _____ ☐ Supplier _____ ☒ New market _____ US

☐ Customer _____ ☐ Internal _____ ☐ Other _____

Add details:

ESTIMATED BENEFITS:

☒ Financial Benefit: Complete the product lines for the Compounding Pharmacy markets, Annual sales amount \$ 94M (Mandatory For NPD request)
Estimate the potential increase in cash flows, revenues, or any other financial benefits

☐ Cost Saving: _____
Decrease in the cogs, transportation or operation expenses, or any other cost-saving opportunities

☐ Improved Operational Efficiencies: _____
Decrease in the Lead time, delivery time, MOQ, Inventory, or any other efficiency improvement

☐ Non-Financial Benefits: _____

	Quality Improvement; Enhanced customer satisfaction, product competition, Brand reputation, etc. ☐ Other Benefits: _____																
PRODUCT DESCRIPTION: - Functional performance requirements - Appearance - Any unique points of differentiation against similar competitor product lines ...Etc...	Product Definition & Scope • Product: Sterile, powder-free nitrile gloves, in sizes S-XXL, meeting ASTM D3578 and D6319 standards for use in sterile compounding environments. • Primary Use: As essential PPE for personnel performing sterile compounding activities within ISO 5 environments, directly supporting compliance with USP chapters. • Partner Profile: A leading U.S. manufacturer or master distributor with a robust quality system, comprehensive regulatory documentation, and a strong reputation for consistency and reliability in the healthcare market. 3.
