

PRODUCT REQUEST FORM

PRODUCT NAME:	70% Isopropyl Alcohol (IPA) Spray
DESCRIPTION OF REQUEST: - New Product - Modification - Product Extension - Country addition - Label Change - Intended Use -...Etc...	Establishing a strategic distribution partnership to supply 70% Isopropyl Alcohol (IPA) Spray from a leading U.S. manufacturer. This product further solidifies our commitment to becoming a comprehensive one-stop service distributor for the compounding pharmacy market. Project Background In the \$15.6 billion U.S. compounding pharmacy market, maintaining USP <797> and <800> compliance is paramount. Beyond pre-wetted wipes for precise cleaning, Surface and equipment disinfection within cleanrooms and anterooms requires a reliable, ready-to-use spray solution. 70% IPA Spray is a foundational consumable for this purpose, used extensively for sanitizing large work surfaces, equipment exteriors, and carts. As with the wipes, developing or sourcing this product from regions with complex regulatory pathways contradicts our agile, service-oriented distributor strategy. Therefore, distributing a trusted, U.S.-manufactured 70% IPA Spray is the optimal path. This move: • Strengthens our “Compliance Essentials” portfolio, allowing us to offer a complete disinfection solution. • Accelerates our market credibility by leveraging a partner’s established regulatory standing and quality reputation. • Deepens client reliance by addressing another high-volume, recurrent need within their workflow.  Compounding Pharmacy Market By Product, Till 2035 (USD Billion) USD Billion USD 15.6 Billion Current Market Size 7% CAGR Till 2035 USD 31.8 Billion Value in 2035 Source: https://www.rootsanalysis.com/
PURPOSE OF REQUEST:	☐ Complaint No. _____ ☐ Supplier _____ ☒ New market _____ <u>US</u> ☐ Customer _____ ☐ Internal _____ ☐ Other _____ Add details:
ESTIMATED BENEFITS:	☒ Financial Benefit: <u>Complete the product lines for the Compounding Pharmacy markets, Annual sales amount 500K</u> (Mandatory For NPD request) <i>Estimate the potential increase in cash flows, revenues, or any other financial benefits</i> ☐ Cost Saving: _____ <i>Decrease in the cogs, transportation or operation expenses, or any other cost-saving opportunities</i> ☐ Improved Operational Efficiencies: _____ <i>Decrease in the Lead time, delivery time, MOQ, Inventory, or any other efficiency improvement</i>

Internal use only uncontrolled when printed, make sure it is the latest revision. Access to document control list to verify the latest version, If you do not have access to, or are unfamiliar with the document control list, you should consult your quality representative.

	☐ Non-Financial Benefits: _____ <i>Quality Improvement; Enhanced customer satisfaction, product competition, Brand reputation, etc.</i> ☐ Other Benefits: _____												
PRODUCT DESCRIPTION: - Functional performance requirements - Appearance - Any unique points of differentiation against similar competitor product lines - ...Etc...	Product Definition & Scope This project defines a new distribution partnership to augment our service offering. • Product: 70% Isopropyl Alcohol Spray, in compliant sizes (e.g., 1-gallon bottles with sprayers, or ready-to-use spray bottles) from a qualified U.S. partner. • Primary Use: For broad-surface disinfection in compounding pharmacy cleanrooms, anterooms, and on equipment, supporting environmental control protocols. • Our Role: We will source, stock, and distribute this product, integrating it into our logistics and sales platform to provide pharmacies with a convenient, reliable source for both their spray and wipe disinfection needs.
