

PRODUCT REQUEST FORM

PRODUCT NAME:	Sterile Level 2/3 Gowns
DESCRIPTION OF REQUEST: - New Product - Modification - Product Extension - Country addition - Label Change - Intended Use -...Etc...	Project Background The \$15.6 billion U.S. compounding pharmacy market operates under the stringent requirements of USP <797> for sterile compounding. Compliance mandates the use of appropriate barrier apparel to maintain the integrity of the ISO 5 controlled environment. Sterile surgical gowns (AAMI Level 2 for moderate, Level 3 for high liquid barrier protection) are an essential component of personnel attire for all sterile preparation activities. The most efficient and strategically sound approach is to distribute gowns from an established, reputable U.S. manufacturer. This strategy: • Provides immediate compliance assurance to pharmacy customers with products that have pre-existing AAMI certifications and 510(k) clearance where applicable. • Eliminates substantial upfront risk and resource allocation, allowing us to focus on commercial execution and customer relationship building. • Completes a core segment of our Sterile Compounding PPE offering, enabling us to present a fully integrated "Gown-to-Glove" sterile attire solution alongside our Sterile Nitrile and Chemo Gloves.  Compounding Pharmacy Market By Product, Till 2035 (USD Billion) Legend: Oral, Topical, Rectal, Nasal, Ophthalmic USD Billion USD 15.6 Billion Current Market Size 7% CAGR Till 2035 USD 31.8 Billion Value in 2035 Source: https://www.rootsanalysis.com/

PRODUCT DESCRIPTION:

- Functional performance requirements
- Appearance
- Any unique points of differentiation against similar competitor product lines
- ..Etc...

Product Definition & Scope

- **Product:** Sterile, disposable surgical isolation gowns, rated to AAMI PB70 Level 2 (moderate barrier) and Level 3 (high barrier) liquid protection standards.
- **Primary Use:** Worn by compounding personnel during sterile product preparation within a laminar airflow hood (ISO 5 environment) to protect the compounded preparation from human-borne contaminants.
- **Partner Profile:** A U.S.-based manufacturer with a robust track record in producing sterile gowns for the healthcare market, possessing all necessary cGMP and 510(k) clearances where applicable, and a commitment to consistent quality.

Sterile Level 2/3 Gown	Distribute Agent Brand	 	\$17.5/bag (Level 3 Sterile)
Sterile Chemo Gloves	Distribute Agent Brand	  	\$1.56/bag (Nitrile)

REQUEST TYPE

- ☐ LCR (Labelling Change Request)
Changes on the labels without changing the products
- ☐ SCR (Supplier Change Request)
Change applications initiated by Suppliers
- ☐ ECR (Engineering Change Request)
*Existing products that SOLM is the legal manufacturer
Engineer changes that are not bringing new hazards/risks*
- ☐ NPD (New Product Development)
*Develop new innovative products that SOLM will be the legal manufacturer
Significant changes on existing products that may bring new hazards/risks or new intended use
Change products from outsourcing to SOLM to be the legal manufacturer
Development of VET/Component products*
- ☒ SDP (SOLM Distributor Product)
*New product introduction that SOLM will not be the legal manufacturer
No change on the product, no SOLM information on the labels*
- ☐ SPP (SOLM Portfolio Product)
*New product introduction that SOLM will not be the legal manufacturer
No change on the product, Add SOLM information on the labels*
- ☐ Customized Product / Market
*Purchased products that SOLM is not the legal manufacturer
Engineering change on products or new customized products requested by SOLM
New Market region requested by SOLM*
